Go Europe via Austria

Ever since the University of Vienna Sommerhochschule (SHS) was established in 1949, an international summer school has been offered every year. Apart from its educational mission, one of the summer program's most important aims has been restoring and promoting mutual understanding between Austrians and Americans that World War II had done so much to destroy.

Today the program provides a multi-dimensional survey of the **present development of Europe** and the European Union (EU). Participants will study both the decisionmaking processes within the EU institutions as well as various aspects of European political culture. The program aims at contributing to an **increased understanding of the EU** and its possible future shape.

Students from all over the world have been drawn to the program, not only because of the **outstanding academic reputation** of its European Studies courses and the excellent opportunities it offers students to learn German, but also because of its location directly on the shores of one of Austria's most scenic lakes, Lake Wolfgang, in the Salzkammergut region, and because of the area's **excellent sports and recreational facilities**.

The intercultural dimension provided by the summer program's internationally **diverse student population** has become one of the most rewarding features of students' learning experience. Today, more than 30 different nationalities are represented in the student body, up to 100 students accepted into the program, creating the conditions most conducive to **intercultural and social interaction**.

The Sommerhochschule operates under the academic and administrative supervision of the Rector of the University of Vienna. The organizers, faculty and sponsors believe that the Sommerhochschule's formula of holistic learning – intellectual pursuit and physical exercise in a setting of intercultural and social exchange – helps reinforce **mutual respect and tolerance** among participants.

We would like to invite you to study at the University of Vienna's summer campus in Strobl and, like thousands have done before you, experience an unforgettable summer.

Academic Program

Introduction

The **univie: summer school** is located in the picturesque village of Strobl in the **Salzkammergut** region, one of Austria's most attractive summer vacation areas. Students and faculty are accommodated in high standard single and double rooms at the program's beautiful summer campus on the shore of Lake Wolfgang (accommodation p. 26).

The **four week** program offers high level European Studies courses and the Austrian Arbitration Academy in the morning and German language courses in the afternoon.

The **European Studies** courses are held in English and focus on Europe and the European Union. They cover political, economic and legal, but also historical and cultural aspects of the multiple transformations the continent is currently undergoing.

The **Austrian Arbitration Academy** focuses on international dispute settlement by arbitral tribunals. (Course descriptions p. 8–23).

The program offers a concise and up to date introduction to recent developments in Europe which will provide students from different fields of study with additional key

qualifications for their future professional work. The academic courses are taught by distinguished scholars with international teaching experience. The **faculty** consists of tenured professors from the University of Vienna as well as professors from other renowned universities and leading experts from institutions such as the Austrian Central Bank and the European Commission (faculty profiles p. 34–41).

In addition to the academic program, **German language** courses are offered at four different levels of proficiency (German Language Program p. 24–25).

The unique Strobl experience is enhanced by an **extensive extracurricular program** including sports courses (windsurfing and tennis), mountain hiking, and excursions to Salzburg, St. Wolfgang, and the Ebensee Concentration Camp Memorial. (Sports and recreation, cultural program p. 28–29).

The campus life creates an environment which encourages **intercultural and social exchange** and favors mutual understanding within the **international student population**. Participants thus broaden their horizon, meet colleagues from different fields of study, make friends for life and build connections for their future professional careers. The **alumni network** of former Sommerhochschule participants enables students to stay in touch even long after their stay in Strobl.

Course Selection

The univie: summer school lasts four weeks and consists of two two-week sessions.

13 European Studies courses, the Arbitration Academy course, and German Languages courses on four levels are offered.

- European Studies courses last two weeks (4 ECTS each).
- The Arbitration Academy course lasts two weeks (8 ECTS).
- German language courses last four weeks (6 ECTS each).

In the course of the four week program **students are required to attend courses amounting to 10 ECTS credits**. In order to meet this requirement one of the following options is possible:

1. three European Studies courses or
2. the Arbitration Academy course plus one European Studies course or
3. one German course plus one European Studies course.

The Austrian Arbitration Academy lasts two weeks and can also be attended as an independent program. (See p. 21–23).

Before making their course selection on the application form students should make sure that the selected courses do not correlate in time. For details regarding the schedule please see p. 6–7.

While students have to fulfill the Sommerhochschule requirements, course selection should also be made according to the requirements of the respective home university. It is recommended to discuss course selections with representatives of the home universities to ensure or simplify accreditation after the program.

Admission

Applicants have to be at least 18 years old and must have completed two years of studies at college or university level in their countries of residence or have an educational background equivalent to one year at a European university before the beginning of the program. Applicants must be in attendance for the whole period of the summer school, be able to take part in the number

Students may also enroll in or audit additional courses. The maximum number of courses students may attend during the summer program is four. (This includes German courses and/or courses taken for audit).

of required courses, have an adequate command of the English language and be in good health.

In order to ensure that students can prepare all materials needed for the application in time, it is advisable to read the information given in the application chapter (p. 30–31) carefully before starting the application process.

ECTS Credits and Contact Hours

The Sommerhochschule grants credits according to the European Credit Transfer System (ECTS). The allocation of the ECTS credits to the Sommerhochschule courses is based on the amount of work necessary for a course.

- Each European Studies course corresponds to 4 ECTS credits.
- The Arbitration Academy course corresponds to 8 ECTS credits.
- Each German language course corresponds to 6 ECTS credits.

The lecture time per course is represented by contact hours. (Each contact hour consists of 45 minutes class time.)

- Each European Studies course consists of 32 contact hours.
- The Arbitration Academy course consists of 64 contact hours.
- Each German language course consists of 64 contact hours.

Cooperation with the Diplomatic Academy of Vienna:

Attending the summer school increases the chances of admission within the highly competitive application process at the Diplomatic Academy (DA). Students who proceed to study in the *Master of Advanced International Studies Program (M.A.I.S.)* at

the DA may also be exempt from attending certain core courses covering the same material as the courses they took at the summer school. The decision on such exemptions can only be made by the respective department chair in economics, law, history and political science during the individual advisory sessions at the beginning of the academic year at the DA.

For information concerning the DA please visit: www.da-vienna.ac.at

Exams and Grading System

Final examinations are given in all courses. Courses are graded using the Austrian grading system: 1 (very good); 2 (good); 3 (satisfactory); 4 (sufficient); 5 (failed). Additional final grades are: W (withdrew from the course with permission), AU (audit) and NG (not graded). The grade points given in the transcript provide an opportunity to differentiate performance within each of the stated grades.

Grade and grade points are as follows:

Austrian Grade	Grade Points
1	89 – 100
2	76 – 88
3	63 – 75
4	51 – 62
5	0 – 50

The Sommerhochschule reserves the right to exclude students from the summer school in case of improper behavior.

Transcripts and Diplomas

Transcripts of grades will be given to those students who attend classes regularly and who pass the exams in the required number of courses.

Students who successfully attend and complete four courses will receive the **SHS Diploma in European Studies**.

Those who have a GPA of 1.25 on the basis of Austrian grading for their diploma courses will receive a diploma with highest distinction.

Classroom Attendance

Classroom attendance is vitally important for a successful completion of each course, particularly in those classes which rely on classroom discussion or other forms of

active participation by the students. Therefore regular classroom attendance is mandatory for all courses. Students absent from classes without leave will not be graded.

Cancellation of Courses

The Sommerhochschule reserves the right to cancel any course for which the number of registered students is deemed insufficient, or for other compelling reasons.

Schedule

July 13 – August 10, 2019

1st Session – first two weeks of lectures

Time	Lecturer	Course	Room
7:30 – 9:00		Breakfast	Dining Hall
8:30 –10:30	Oberhammer	Austrian Arbitration Academy – Unit 1	Sem 1
8:30 –10:30	Gnan/Kwapil	European Monetary Union	Sem 2

18:30–19:00		Tutorials	
19:00–19:45		Dinner	Dining Hall
20:00–22:00		Interdisciplinary Seminar (twice per week)	BÜ Saal

Course Descriptions

European Monetary Union

Ernest Gnan/Claudia Kwapil

July 15 – July 26

4 ECTS credits

In no other area has European integration advanced as much as in the monetary sphere. By joining the European Economic and Monetary Union (EMU), 19 countries of the European Union have given up their national currencies and their monetary sovereignty and have created a common monetary area with a joint central banking system (Eurosysteem) and a common European currency (Euro). On the one hand, the Euro – in form of notes and coins – provides a strong common European symbol. On the other hand, it is a powerful policy instrument.

The financial, economic and debt crisis that has shaken up euro area countries revealed at the same time the power of monetary policy. Starting in 2008 the Eurosysteem has implemented a series of unconventional monetary policy measures ranging from negative policy rates to asset purchase programmes.

After having successfully completed the course, you will be able to answer the following questions:

- How did it all start?
- Is the European Monetary Union beneficial for all 19 countries forming it, or more so for some than for others, and why?
- What are the necessary preconditions to make membership in a monetary union a success for a country?
- What role does monetary policy play in the teamwork between fiscal policy, structural policies as well as (micro- and macro-) prudential policies?
- How do negative policy interest rates work? Do banks really receive interests for borrowing money?
- How does monetary policy influence my daily life?
- Will the enormous asset purchase programme, which is run by the ECB, create inflation?
- What are future challenges for the ECB and for central banks at large?

Requirements: Active **class participation** (20%), **mid-term exam** (40%), and **final exam** (40%).

This course is regularly organized with the support of the Oesterreichische Nationalbank (Austrian Central Bank).

E. Gnan

C. Kwapil

The Institutional Framework of the European Union Contrasting Theory and Practice

Andrea Lenschow

July 15 – July 26

4 ECTS credits

The course will focus on the unique political system of the European Union. Students will be introduced to the main institutions playing a role in the decision-making process and to some of the main decision-making procedures.

The course very much builds on the active participation of participants. Group work, debates and a simulation exercise form an integral part of the program.

The first part of the course will focus on the **Institutional Framework** of the EU by examining:

- The main sources of EU Law and where relevant their repercussions on the institutional framework.
- The role of the European Commission, the European Parliament, the Council of Ministers and the Court of Justice of the European Union within the EU's institutional framework (and where relevant their evolution during the process of European integration).

This section will be based on lectures, class discussions and debates on such critical questions as the quality of democracy in the EU and the rise of Euroscepticism.

The second part will concentrate on **policy making within the European system** by looking at:

- Some of the main decision making procedures (with a focus on the ordinary legislative procedure, formerly co-decision)
- The role of non-institutional actors such as interest groups and NGOs in the EU's decision making process

This part will close with a simulation of a Council Working Party about an EU regulation (using authentic material), where students will either take on the role of an EU Member State or represent one of the EU institutions.

Requirements: **Class participation**, participation in the **simulation** as well as participation in **joint seminars** (30%), a **30 minute mid-term exam** at the end of the first week (20%) and a **final exam** (50%). The final exam will consist of essay questions.

It is recommended to take this course in conjunction with Prof. Schima's course: *European Union Law*.

A. Lenschow

Co-funded by the
Erasmus+ Programme
of the European Union

European History since 1815 Political, Economic, Social, and Cultural Trends

Karl Vocelka

July 15 – July 26

4 ECTS credits

Europe changed in the last 200 years dramatically: borderlines moved, economy and society changed, there were breaks and continuations in the development of all countries. Without looking to the long history of the European continent one cannot understand Europe of today.

Many phenomena of the 19th and 20th century had a large impact on the identity constructions of European countries. Discussions about phenomena like former political structures, multi-nationalism, national identity, minorities etc. between participants of different countries and cultures will allow comparisons and connect this class to problems of the present. The course attaches great importance to culture, as this topic is – talking about Europe – often neglected.

The course deals in a broad way with all European countries, but has a clear focus on Central Europe and will cover the following topics:

- What is Europe? Antique heritage, Christianity, Enlightenment
- European Countries 1815 – 1918 – 1945 – 1989
- Political systems in Europe including Fascism and Communism
- Demographic development – urbanization – migration – genocide
- Nationalism – national states versus multinational giants
- The East West conflict and the Iron Curtain
- The building of the European Union
- Economic development (industrialization, mechanization of agriculture, colonialism, globalization)
- Social changes (from a class society to modern society)
- Selected examples of cultural changes (e.g. The birth of modernity around 1900 scientific progress and ecological ideas, the impact of digitalization and modern media)

Requirements: **Attendance** and **participation** in class discussion constitute 30%, a **short paper** 30% and a **written final** (essay-type) 40% of the grade.

K. Vocelka

The summer program allowed me ample opportunities for academic achievements, and enjoying the surrounding beauty either on campus, or at the lake.

Rania El Razzaz, Egypt

European Private Law – The Civilian Tradition

Franz-Stefan Meissel

July 15 – July 26

4 ECTS credits

The course offers a historical and comparative introduction to European Private Law.

Today's variety of legal systems in Europe can't be properly understood without reference to European Legal History. Thus, one part of the course will be devoted to the development of European Private Law and the specific contribution of the Civilian Tradition. Particular attention is given to the dominant forces of law making in the different legal systems: magistrates and legal experts in Ancient Roman Law, professors and clergymen in Medieval Law, judges in the Common Law and legislators in Modern Continental Law.

Furthermore, basic concepts of Private Law such as property, good faith in contractual dealings and the role of fairness in extra contractual obligations will be dealt with in this course in a comparative perspective. This will be done mainly in form of discussions about specific cases. Special emphasis will be placed on the discussion of possible solutions, the analysis of court decisions and the evaluation of legislative choices.

A guest lecture by former Advocate General of the European Court of Justice (ECJ) Prof. Verica Trstenjak will treat current issues of EU Private Law, outlining the pertinent legislation in the area of EU Consumer Protection Law and Copyrights, and presenting selected Case Law of the ECJ.

F.-S. Meissel

V. Trstenjak

I. The Landscape of European Private Law: Diversity and Common Traditions

- The various meanings of "European Private Law" and the Legal Traditions in Europe
- Variations of a Theme: Transfer of Property in European Legal Systems
- The Scope of Information Duties in Civil Law and in Common Law
- Good Faith in European Contract Law
- Extra contractual Obligations: the Witty Genealogist's Case

II. Lawyers, Judges, Legislators. The Making of European Law

- Roman and Medieval Law: The Jurists' Role in the Development of Law as a Science
- Differences in Style and Substance: Codification(s) of Private Law in Continental Europe
- Common Law and Civil Law: The Role of Judges as Law Makers

III. EU Private Law: Guest Lecture by Prof. Verica Trstenjak

- The Impact of the ECJ on the Evolution of EU Private Law

Requirements: Regular **attendance** and active **participation** in class discussions (25%), an open-book **essay exam** (50%), and a **quiz exam** (25%).

International Refugee Law and Policy

Andreas Schloenhardt

July 15 – July 26

4 ECTS credits

This course explores international refugee law and policy in theory and practice. The course provides an introduction to the concepts and causes of refugee flows, the evolution, foundations, and key features and of international refugee law, and explores the refugee situation and asylum systems in a range of countries. The course introduces students to principles of international refugee law, examines international obligations under the *Convention and Protocol relating to the Status of Refugees*, and outlines the present laws and policies in relation to asylum seekers.

A. Schloenhardt

The discussions, exercises, and working-group sessions during the course invite students to critically reflect on the nature and objectives of international refugee law, and understand the rationale of international, regional, and domestic policies in this field. Moreover, the course seeks to improve communication, teamwork, argumentative, presentation, and research skills. The course enhances students' abilities to research relevant material, critically analyse policy documents and legislation, case studies and scholarly writing, and elaborate practical recommendations for law reform and policy change.

Assessment: **Seminar exercises** and **participation** (30% of final grade), **mid-course examination** (20%), **group project with oral presentation** (50%).

Participating in Sommerhochschule was a challenging and rewarding experience. A key element in active learning process was the communication with so many different people. Meeting all those experts and key players in that field was a great experience. With all faculty members at Sommerhochschule I had the opportunity to acquire the most advanced knowledge and to develop the necessary skills and attitudes so vital for me in the future.

Ivana Premerl, Croatia

European Identities - Aspects of European Visual Culture

Monika Schwärzler-Brodesser

July 15 – July 26

4 ECTS credits

The course will deal with images and visual culture phenomena specifically developed in and for the European context. It will familiarize students with a number of strategies and concepts for delivering messages that come in visual form. The corresponding visuals will be mostly drawn from the field of art, but also from popular culture and the media. While the aesthetic parameters of the presented visuals will be important, the main focus will be on the social practices reflected in these images. Priority will be given to visualizations that are daring, subversive, and play on common and already familiar pictorial codes.

M. Schwärzler-Brodesser

Course objectives:

- To train and enhance students' visual literacy and turn them into critical readers of visual information, which is becoming increasingly important in today's communication
- To make them aware of the codes and genres on which most of today's visuals are based
- To familiarize them with some of the most influential European players in the field of photography and art

Specific course topics:

- Staged and digitally enhanced photography and the realities these photos create
- Visual concepts of commemoration and of dealing with the past
- Visuals and gender codes / picturing femininity and masculinity
- Artistic interventions and subversive re-definitions of public space
- Visual narratives and their parameters
- Bodies, sculptures, 3-D hybrids as carriers of meaning
- The design of social activities and engagement

For this course, no specific prior background in art or visual culture is needed. Students with a strong interest in visuals, their aesthetic qualities, and their analytic appeal will find this course stimulating.

Requirements: **Attendance** and **active participation** (30% of the grade), **final exam** on the course material (40%), **project** (30%).

International Investment Law and Arbitration

Ursula Kriebaum

July 29 – August 9

4 ECTS credits

The legal environment for international foreign investment has changed dramatically since the end of the Cold War. International investment dispute resolution, in particular through international arbitration has become increasingly common. Foreign investors are much more willing to pursue claims against host states than their home states (e.g. for alleged expropriation or unfair treatment). This course will focus on international investment disputes and their resolution through arbitration and is attractive to students interested in public international law and international arbitration. The course will address the dispute settlement mechanism as well as the substantive standards of investment protection. Teaching will vary between interactive lectures encouraging student participation, traditional lectures and case studies. Student presentations are required.

The following topics will be covered:

1. Introduction

- The conflicting interests of the host state and the investor
- Historical development of international investment protection

2. The Sources of International Investment Law

3. The Concept of Investment (Who is an Investor? What is an Investment?)

4. Standards of Treatment

- Fair and equitable treatment
- Full protection and security
- The Umbrella Clause
- Access to justice, denial of justice, fair trial
- National treatment
- Arbitrary and discriminatory
- Most favoured nation clause

5. Expropriation

6. State Responsibility and Attribution

- Attribution
- Responsibility for illegal acts
- Necessity

7. Dispute Settlement, ICSID

- Methods of dispute settlement
- Treaty arbitration
- Jurisdiction
- Applicable law
- Annulment
- Enforcement of Awards

Recommended Reading: Dolzer/Schreuer: *Principles of International Investment Law* (2nd ed., 2012).

Requirements: **Regular attendance** and **participation** in class discussion as well as a presentation (40%) and a **final exam** (60%).

U. Kriebaum

Contemporary European History

Milestones of European History 1945-2019

Oliver Rathkolb

July 29 – August 9

4 ECTS credits

In order to understand the decision making of the European Union in 2019 it is necessary to analyze the milestones of European history after the end of World War II in 1945. The Super Power confrontation between the US and the Western Bloc and the Soviet Union, the so called “Cold War“ shaped the development of the “West“, the formation of NATO and European integration with the Council of Europe and the European Coal and Steel Community. At the same time the Soviet Union changes the economic and political structure of the Communist East and Southeast establishing the military Warsaw Pact and the economic socialist counterpart, the Comecon.

O. Rathkolb

In this course will be discussed the reasons for the first major integration step, the foundation of the European Economic Community (EEC) in Rome in 1957 with six member states. Still the US plays a major role as a hidden hand mediator helping to overcome the still strong resentments between France and Western Germany, as well as individual European decision makers like Jean Monnet, Robert Schuman, Konrad Adenauer and others. Already in the 1960s – a few years after the establishment of the EEC – the French President Charles De Gaulle vetoed the decision making and hindered an integration of Great Britain – which, however was just postponed only until 1973.

The enlargement from 15 member states in 1995 to 28 and the negative effects of the world financial and economic crisis since 2008 as well as the recent migration and refugee flows pushes the EU into an unknown direction and forces the necessity of total reform.

After Brexit and the UK preparing for leaving the European Community the EU is facing a major and deep crisis with an open end in the growing geostrategic and economic struggles between the US, China, Russia, and the EU.

By analyzing the soft but very important emotional basis of Europeanness like identity, value systems and culture after 1945 as well as the integrative impacts of institutions like the European Court of Justice and the European Court for Human Rights options for the future of the EU will be presented and debated.

Requirements: **participation in class room discussions** (20%), **oral presentation of a short paper** (3–4 pages) (40%), and a **final essay** written in class (40%).

European Union Law

The Court of Justice of the EU and the Internal Market

Bernhard Schima

July 29 – August 9

4 ECTS credits

This course is designed to help students understand the system of judicial protection in European Union (EU) law and the importance of the contribution of the Court of Justice of the EU to the development of the Internal Market.

This course will:

- discuss the various judicial remedies in the EU legal order with particular emphasis on the infringement procedure and the preliminary reference procedure;
- explain the concept of an internal market;
- explore how the Court of Justice in its case-law has contributed to making the free movement of goods, persons, services and capitals operational, and
- look at the interplay between the Court's case-law and secondary Union legislation establishing the Internal Market.

Requirements: Performance will be assessed on the basis of a **short quiz** (30% of the grade) at the end of the first week and a **written final exam** (60%). **Class participation** will be taken into account (10%).

This course, which looks at European integration from a legal perspective, is recommended for students with prior knowledge of the institutions of the European Union or who have taken Andrea Lenschow's course: *The Institutional Framework of the European Union*.

B. Schima

Co-funded by the
Erasmus+ Programme
of the European Union

I had an amazing time studying at the Sommerhochschule and will always hold the faculty, staff, and students in the highest regard. It was an experience I will never forget and always cherish.

Dara Hrytzak, Canada

Law and Information Society in Europe

Nikolaus Forgó

July 29 – August 9

4 ECTS credits

This course will focus on European and global trends in the legal regulation of information and communication. Specific attention will be attributed to access to information, copyright, identity management and privacy in a globalized information society. We will work on the relevant European regulations, directives and case law and will compare them with other legal, technical and social approaches.

Topics:

- Law as Code and Code as Law? The relations between technical, social, economical and legal forms of regulation
- Regulation of Information: The European approach
- Transparency, Privacy, and Data Protection: outdated concepts in an information society?
- Identity, Authenticity, and Security in a globalized network-environment

Recommended Reading: Lawrence Lessig, Code and other Laws of Cyberspace; additional texts and cases will be distributed throughout the course.

Requirements: Regular **attendance** and **active participation** in class discussions (40%) and an open-book **essay exam** (60%).

N. Forgó

Co-funded by the
Erasmus+ Programme
of the European Union

Strobl is a unique place for learning together and from one another about origins, interests, and institutions in a relaxed atmosphere of loyalty and equality where all sorts of borders and prejudices fade away, horizons are expanded, common outlook is broadened, new countries and cultures are discovered.

Yevgenia Gaber, Ukraine

The Future of Media and Journalism International, Interactive, Interdisciplinary

Andy Kaltenbrunner

July 29 – August 9

4 ECTS credits

Bill Kovach and Tom Rosenstiel, two of the best-known journalism-researchers and -teachers, find a surprising definition: “While once the word journalist described a group of organized professionals – now it describes anyone who might find him or herself producing news.” (The Elements of Journalism, 2014). In the course we will ask questions: Are we all journalists if we only want to be it? If so, how do we perform on our channels ethically and responsibly? Is there a role for professional communication in a time when the US president by-passes media and journalists with – until now – 40.000 messages on his personal Twitter account? How to distinguish propaganda, fake-news and corporate publishing from reliable, independent, professional media-production? How to identify journalists in 2019 pp.?

A. Kaltenbrunner

Traditional media-companies – TV, radio, newspaper – in Europe and all over the world face a tremendous challenge as a consequence of globalization, digitalization, and the internet. New big digital players are taking over. The international mix of Sommerhochschule gives us the great opportunity to compare internationally. The course will integrate the students own experience as “ProdUsers”, who are familiar with new technologies and new technical devices and their national media-landscapes. In working groups students will analyze practical examples of old and new media (-production) for an incremental understanding of the changes of mass-communication and media-democracies.

Requirements: Performance will be assessed on the basis of **participation in class discussions (40%)**, **journalistic experiments of working groups (30%)**, and a **final exam** discussing a topic of change in journalism and media-societies (30%), which is an essay based on provided literature and the course discussions.

European Political Systems in a Comparative Perspective

Sylvia Kritzinger

July 29 – August 9

4 ECTS credits

This course familiarizes students with the major theoretical, empirical and substantive issues in contemporary European politics. First, the course examines the different governmental institutions, electoral systems and party systems across the member states of the European Union and their impact on political processes and the society. Second, it focuses on the different social cleavages in these political systems and their changes over time. Third, the course analyzes the recent electoral behavior of the European electorate both in national and European Parliament elections and its repercussions on European party systems. The course aims at deepening the understanding of the main debates in contemporary European politics using a comparative approach.

Requirements: Performance will be assessed on the basis of **attendance** and **participation in class discussions** (20%), a **role play** taking different party positions and government negotiations into account (40%), and a **written final exam** (40%).

S. Kritzinger

Co-funded by the
Erasmus+ Programme
of the European Union

Without any doubts it is a great opportunity to combine both: studies and entertainment. The knowledge I received at the Sommerhochschule was really useful and helped me to better understand the European Union's structures and functioning. In addition, I built a network of friends throughout the world and learnt a lot about different countries and cultures.

Irina Guban, Moldova

Principles of International Economics – A European Perspective

Werner Neudeck

July 29 – August 9

4 ECTS credits

This course covers both the (microeconomic) trade and the (macro-economic) monetary aspects of international economics with European applications.

In the first part we examine standard trade theories (Ricardo, Heckscher-Ohlin, Krugman) and explain the gains from trade, the distributional impact of trade (internationally and among groups within countries), and the pattern of trade. The arguments for free trade and for trade restrictions are evaluated and different trade policies are discussed. EU trade policy serves as an example. We also discuss the conflicts between trade creation and trade diversion. Finally, we look into the economics of the internal market of the EU and the economic consequences of migration and factor movements.

The second part opens with a discussion of balance of payments accounting and analyses the determination of exchange rates and the development of international financial markets. Stabilization policies and their impact on output, employment, and prices in different exchange rate regimes are examined in the final part of the course.

In short workshop sessions students will be invited to answer questions and discuss various economic problems in short presentations.

Requirements: The final grade will primarily be based on **two short written examinations** (together 80%) at the end of each week. **Participation** in class and at least one **presentation** in the workshop (20%) are also required.

W. Neudeck

I have never experienced such an intellectually inspiring environment. Complementary to the academic program I was pleasantly surprised by the international and social stimuli.

Philippe Brems, Belgium

Austrian Arbitration Academy

Unit 1 & Unit 2

Paul Oberhammer

July 14 – July 26

8 ECTS credits

The Austrian Arbitration Academy is an intensive **two-week program** on international commercial arbitration for both **regular students of the univie: summer school** and **participants who only take part in this special arbitration course**.

It addresses the following groups of participants:

- **Students** and **law school graduates** interested in the world of international dispute resolution.
- **Young practitioners** looking for a comprehensive course giving them first-hand insights into international arbitration.

The Austrian Arbitration Academy program takes place from **July 13 to July 27, 2019** and consists of 64 contact hours. (Each contact hour consists of 45 minutes class time).

After an introductory session on the first Sunday, July 14, classes will be held Monday to Friday mornings. In additional **afternoon workshops** the participants will discuss salient issues of international arbitration with special guests from the international arbitration community.

On **July 26** a written exam will take place. On the day before the exam, a Q&A session will help the participants to prepare for the exam.

Successful participants will receive the **University of Vienna Austrian Arbitration Academy Diploma**.

Austrian Arbitration Academy

Professor **Paul Oberhammer** (Vienna/London/St. Gallen) acts as course director.

P. Oberhammer

First class international arbitration practitioners from both the bar and academia will teach the classes:

- **Claudia Annacker**, Partner, *Gottlieb Steen & Hamilton LLP* (Paris)
- **Michelle Glassman Bock**, Counsel, *Wilmer Cutler Pickering Hale and Dorr* (Frankfurt/Washington DC)
- **Christian Koller**, Professor, *University of Vienna*
- **Christian W. Konrad**, Partner, *Konrad & Partners* (Vienna)
- **Helmut Ortner**, Counsel, *Wilmer Cutler Pickering Hale and Dorr* (London)
- **Friederike Schäfer**, Counsel, *International Chamber of Commerce* (Paris)
- **Patricia Shaughnessy**, Professor, *Stockholm University*

C. Annacker

The course covers **all aspects of arbitral proceedings**, starting with an introduction on the prerequisites of arbitration. Further modules will focus on the constitution of the arbitral tribunal, the conduct of the proceedings, the arbitral award as well as the challenge and enforcement of said award. Students will be introduced to the legal framework of international arbitration rules and relevant case law. The last module is entirely dedicated to investment arbitration.

M. Glassman Bock

We had the incredible opportunity to meet some of the most important arbitration lawyers and professors from all over the world.

Paloma Castro Hernandez, Spain

C. Koller

The classes will cover the following issues:

- Introduction to International Arbitration
- The Arbitration Clause
- The Arbitral Tribunal
- The Arbitral Proceedings
- The Arbitral Award
- The Challenge of the Award
- The Enforcement of the Award
- Introduction to Investment Arbitration

In addition to these morning classes, specific issues will be discussed in interactive afternoon sessions. Topics in these afternoon modules have included sports arbitration, construction disputes and the issue of calculating damages. Furthermore, participants will have the possibility to train their advocacy skills in a mock hearing (Mini Moot Court) by arguing a fictitious case.

Requirements: Attendance is mandatory. Performance will be assessed on the basis of **active participation** in class (40% of the grade) and a **written final exam** (60%).

The Austrian Arbitration Academy is recommended for advanced law students (pursuing their Bachelor's, Master's or PhD degree), law school graduates and young practitioners. Prior experience in arbitration and/or civil procedure law is not required.

C. W. Konrad

H. Ortner

F. Schäfer

P. Shaughnessy

The first-hand experience of leading practitioners and academics provides a fascinating insight to the world of international arbitration.

Tobias Gregg, Australia

German Language Program

The success of the German language program of the Sommerhochschule is based on careful student placement, teachers well-trained in methodology and with a special training in teaching German as a foreign language, as well as balanced communicative teaching methods. These methods help you to learn quickly and gain confidence in your communicative skills while having fun at the same time.

Teaching Approach

Our teaching approach for effective language learning:

- German will be the only language spoken in class.
- You will be actively involved all the time.
- Pair work and role play will be used to simulate real life situations.

Students will learn German in small groups. If the number of students in a German class exceeds 16, this class will be split up into two smaller sections. The minimum number of students per class is ten. The Sommerhochschule reserves the right to cancel a class should there not be enough participants.

Class Sizes

Ample opportunity for informal conversation and discussion in German will be provided by tutorials conducted by fellow Austrian students. The tutorial groups will consist of three to five students. The tutorials are part of the German language courses and attendance is obligatory.

Tutorials

The German courses are available on four levels: A1, A2, B1 and B2 according to the *Common European Framework of Reference for Languages* (CEFR). Each German course corresponds to 6 ECTS credits (64 contact hours). One contact hour consists of 45 minutes class time.

Levels

For participants with little or no previous competence in the German language. This course leads up to Level A1 according to the *CEFR*.

Content: classes focus on pronunciation; reading and listening comprehension of simple texts; giving basic personal information; establishing contacts with others; taking part in simple conversations; acquiring fundamental vocabulary and learning basic grammar structures that enable unsophisticated spoken and written communication in everyday situations.

German A1

This course leads up to Level A2 according to the *CEFR*.

Content: communication in familiar, everyday situations; reading and listening comprehension of the core message of texts involving topics and requirements of everyday life and familiar situations; writing simple texts about familiar topics and personal interests.

German A2

This course leads up to Level B1 according to the *CEFR*.

Content: communication on general topics; means of verbal expression for more complex conversation; writing of unsophisticated official documents; comprehension of core statements of general interest; radio or television broad-casts; command of basic vocabulary on general topics.

German B1

This course leads up to Level B2 according to the *CEFR*.

Content: further development of reading and listening strategies for enhanced comprehension of complex texts on abstract and concrete topics; boosting vocabulary for clear and adequate action and reaction in written and spoken communication on a wide variety of themes.

German B2

Please make sure you have read the definition of the levels A1 to B2 within the CEFR before selecting your German level on the application form. The following website might help you to evaluate your language proficiency: <http://europass.cedefop.europa.eu/LanguageSelfAssessmentGrid/en>

Student Placement

Although students are advised to select their German level before applying, the final placement will be done on site.

There will be a placement test on Sunday before the beginning of classes.

The test will assess the student's language proficiency and help place the student in the level that best suits his/her needs.

The German language course was a true inspiration for me and in Strobl I actually got an impetus to continue learning the language. The lectures were very good, the group was small so the teacher had the opportunity to teach us almost individually.

Ljubica Djordjevic, Serbia

General Information

Program Overview

The Summer School will take place from July 13 to August 10, 2019. On Saturday evening, July 13, an **orientation session** given by the Program Coordinator will introduce the participants to the program and the campus.

The official **opening ceremony** will be held on Sunday morning, July 14. Students enrolling in **German language courses** will be given a placement test that afternoon. Afterwards the faculty will briefly introduce their courses.

In the evening a **welcome party** will give students the opportunity to meet informally with faculty and staff.

On Saturday August 10, a **closing ceremony**, which will officially end around 12 noon that day, will formally end the summer school.

Attendance of the opening and closing ceremony is mandatory. Students are asked to make their travel arrangements accordingly.

Campus

The summer school takes place at our summer campus located in the picturesque village of **Strobl**. Strobl is part of the Salzkammergut region, one of Austria's most attractive summer vacation areas.

The **campus** consists of 156 acres of meadows and woods with a spectacular mountain view, located directly on the shore of Lake Wolfgang. Living together at the campus is an integral part of the summer program. The engaging **campus life** stimulates joint activities and intercultural and social exchange.

Accommodation

The standard of the houses on campus can be compared to *** hotels. Students are accommodated in comfortable single or double rooms with private baths. All rooms are equipped with a desk. Sheets, towels, and hairdryers will be provided.

Rooms will be distributed according to availability. Room reservations for double rooms will be considered in order of arrival, as long as double rooms are available. Students arriving before July 13 will have to find accommodation themselves until they can move into the campus dormitories. Rooms have to be vacated on August 10, 2019. If the number of students exceeds the number of beds available on campus, we reserve the right to accommodate students in adequate double rooms off-campus nearby.

Meals

All meals are served in the dining hall. The breakfast buffet normally consists of a wide variety of breads, jams and other spreads, honey, eggs, cheese, ham, sausages, cereals, and muesli. Coffee, tea, milk, and orange juice are available during breakfast. Brunch is served on weekends.

Lunch and dinner meals include a variety of Austrian dishes. **Vegetarian dishes are also available.** Please note that the Sommerhochschule cannot guarantee that all dietary needs students may have can be met.

Service and Facilities

The on-campus **office** of the Sommerhochschule will be at student's service Monday to Friday 9:00 am to 4:00 pm. The Sommerhochschule staff will be available for questions and support.

There is a basic **library** where students can select books and readers with the assistance of staff.

All readers and copies needed for the courses will be provided by the Sommerhochschule without additional costs. Books, readers and texts for reading assignments will be available in the office.

Copying machines are provided on campus.

A **study room** will be available for students to study alone or in groups. Students have **free use of the computer** lab on campus, which also features printing facilities.

Wireless internet connection is available on campus free of charge for those who bring their own laptop.

Medical Treatment

Students must provide their own medical insurance. A local general practitioner will provide medical care in minor cases, for medical emergencies a nearby hospital is available. Every appointment with the doctor or the hospital has to be

paid for by the students themselves. Students can retrieve the sum with the invoice from the doctor/hospital from their insurance companies.

Climate

In Austria, the summer climate is generally mild and comfortable with temperatures around 28 degrees Celsius (83 degrees Fahrenheit). Due to the summer program's location, nestled in the mountains of the Salzkammergut, the weather can change rather rapidly, and there might be rain and temperatures around 16 degrees Celsius (60 degrees Fahrenheit) as well.

Clothing

Casual wear will suffice for most activities. **Students are, however, requested to have suitable attire for formal occasions** like the opening ceremony, the closing ceremony, and the Midsummer Night's Ball. **Dark suits for men and evening or cocktail dresses** for ladies are highly recommended.

Rain wear, warm clothes, and sturdy shoes are strongly recommended.

Internationality

Since participants traditionally come from over 30 different nations, students are encouraged to bring with them information about their home countries (e. g. photographs, music, etc.) in order to promote international understanding. Likewise, particularly in view of extracurricular activities such as folk dancing and students' performances on the final evening, it might be fun for students to bring along their national costumes or other relevant utensils.

Travel Arrangements

The Sommerhochschule campus is located at Strobl, approximately 300 km west of Vienna and 45 km from Salzburg. Students are responsible for their transportation to Strobl.

Directions: Students arriving by plane should fly into one of the following airports: Salzburg (Austria), Vienna (Austria), and Munich (Germany). Students arriving in Vienna or Munich have to take a train to Salzburg before changing to the bus to Strobl. The bus station is situated opposite the Salzburg train station. On Saturday, July 13, a Sommerhochschule shuttle-bus will meet all incoming busses at the Strobl bus stop.

Please note that the last reasonable bus to Strobl leaves Salzburg around 7:15 pm.

Visa Applications

Citizens from certain countries must apply for a visa before traveling to Austria. Students are advised to contact the Austrian embassy in their respective home countries for detailed information regarding the visa application process.

Visa applications should be made well in advance because visa application procedures may require well over one month. Austrian embassies in certain countries ask for a payment confirmation or an invitation letter from the Sommerhochschule, before the applicant is issued a visa. Students can obtain such documentation from the Sommerhochschule after having paid the complete program fee. It is the student's responsibility to apply and obtain a visa in time for the summer school.

Sports and Recreation

All extracurricular activities on campus are free of charge.

Two thirds of the campus is surrounded by Lake Wolfgang and forest. A romantic serpentine footpath winds its way through the forest along the lake and is ideal

for walks and runs. Hiking trails in the surrounding mountains are well marked and safe, and two weekend days are reserved for hiking tours.

The campus area is large enough for various sport activities, such as frisbee, badminton, soccer, etc. The pier and boathouse are not only available for sports activities, but also to relax, sun bathe, and for meeting up with other students.

The campus also features a poolroom, a sauna, a table tennis room, and windsurfing facilities. Our sports trainer offers windsurfing courses throughout the duration of the summer program.

Indoor facilities for volleyball, basketball, soccer, and other sports are available in the local sports hall.

Cultural Program

All events of the cultural program are free of charge.

Excursion to Salzburg: The birthplace of Wolfgang Amadeus Mozart is one of the most beautiful cities in Europe. With its spectacular buildings and charming cafes it is the perfect place to stroll around, go shopping, visit Mozart's birthplace or just enjoy the excellent sweets for which Salzburg is famous. Among other sights we will visit Schloss Hellbrunn during our Salzburg excursion.

Excursion to St. Wolfgang: After a boat trip students can take a walk through the lovely village of St. Wolfgang, where they have an opportunity to see the impressive Pacher Altar and visit the well-known White Horse Inn.

Excursion to Ebensee: A guided tour through the Museum of Contemporary History and the Ebensee Concentration Camp Memorial in the village Ebensee will be organized for the students. The Memorial includes the only remnants that were not destroyed after the camp's liberation. In one of the huge tunnels an exhibit provides a detailed description of the camp's history.

Chamber Concert: One evening a chamber concert with a string quartet of the Vienna Philharmonic Orchestra will take place.

Dance course: There will be a dance course once a week, at which students will have an opportunity to learn local and international folk

dances and practice, of course, the cherished Viennese waltz. Traditionally, the dance course has been one of the highlights of the program.

Midsummer Night's Ball: The summer program will close with a festive Candle Light Dinner followed by the Midsummer Night's ball where students are welcome to practice the dances learned in the dance course.

Fees and Application

Fees

Sommerhochschule fees are € 1,950 which include registration, tuition, use of all sports and recreational facilities (including tennis and wind-surfing lessons), all planned excursions, and the Austrian Students' Union fee (including general accident and liability insurance).

An additional **fee for room and board** on campus will be collected by the Sommerhochschule for the host institution (Bundesinstitut für Erwachsenenbildung). This fee includes accommodation and full board (breakfast, lunch, dinner) for the four week program.

Accommodation in a single room:

€ 1,742

Accommodation in a double room:

€ 1,438

(Prices include local tax.)

Rooms will be distributed according to availability. Room reservations for double rooms will be considered in order of arrival. All additional costs for travel arrangements as well as health insurance and medical care are the responsibility of the participants.

The two-week **Austrian Arbitration Academy** can also be booked as an independent program. In this case the **fees are € 1,300** which include registration, tuition, use of all sports and recreational facilities, all planned excursions, and the Austrian Students' Union fee (including general accident and liability insurance). For AAA students a limited number of rooms is available on campus. Students applying for on-campus accommodation have to pay an additional **fee for room and board** which will be collected by the Sommerhochschule for the host institution. This fee includes

accommodation and full board (breakfast, lunch, dinner) for the two-week academy program.

Accommodation in a single room: **€ 867**

Accommodation in a double room: **€ 717**

(Prices include local tax.)

The nearby village of Strobl features a variety of guest houses and hotels to accommodate participants. It is highly recommended to book accommodation well in advance.

Application

Students are advised to read these instructions carefully before completing the application material.

Applicants have to submit the following documents:

1. Application form: Applicants must complete the application form (inserted at the end of this brochure).
2. Statement of Purpose: Applicants have to submit a written statement of motivation (maximum length one page).
3. Recommendation Letter: Applicants are required to submit a recommendation letter. The letter has to include a paragraph about the student's ability to study abroad. The letter has to be submitted in original, bearing the referees signature. Preferably it should be written on official letter paper and placed in a sealed envelope.
The recommendation letter can be written by a person from your academic field or by a person from the professional field. If the applicant is a student, the letter should be written by a person from his/her academic area.
4. Transcript of Grades: The application must include an official, certified transcript showing courses and grades from the university the applicant is currently attending. Applicants who have already completed their studies should submit a copy of their diploma. All transcripts and diplomas must include an explanation of the grading system used.
5. Official proof of proficiency level in English: Applicants whose native language is not English must submit proof of their proficient command of English. This can be a TOEFL Test Score Report, an IELTS Test Report, a diploma of a Cambridge Exam or a diploma of any other official institution stating the English level.
6. Two passport-size photos taken within the past year.
7. Deposit: A deposit of € 400 has to be submitted with the application.

All documents have to be submitted either in original or as a certified copy.

All documents that are not issued in English or German have to be translated into **English or German**. The translations have to be done by a notary or an official translator. Please note that applications will not be reviewed until all required materials have been received. **Incomplete applications will not be accepted.**

Application Procedure

Applications for admission to the summer program are considered in order of their arrival. Students are strongly advised to apply as early as possible.

The application deadline for the summer school 2019 is April 30.

Applications must have reached the office of the Sommerhochschule by this date.

Application material must be sent to the following address (emailed applications cannot be accepted):

Innovationszentrum Universität Wien GmbH –
Sommerhochschule
Campus of the University of Vienna
Alser Strasse 4/Hof 1/Tuer 1.16, 1090 Vienna, Austria

The deposit of **€ 400** is considered part of the required application material and must be transferred to the following bank account of the Sommerhochschule by April 30:

Innovationszentrum Universität Wien GmbH –
Sommerhochschule
Bank: Bank Austria
Bank address: Schottengasse 6, 1010 Vienna, Austria
Account number: 00282240100
Bank code: 11000
BIC: BKAUATWW
IBAN: AT57 1100 0002 8224 0100

The applicant's full name (first name and surname) has to be stated as "reason for transfer" or "reason for payment". All charges in connection with the payment must be borne by the participant. In some cases charges can be incurred both in your home country **and** in Austria.

After April 30, those students accepted by the Sommerhochschule will be informed via email. Upon notification of their acceptance, students are required to pay the remaining balance of **€ 1,550** for the program fee and the accommodation fee of **€ 1,742** for a single room (or **€ 1,438** for a double room) into the bank account of the Sommerhochschule.

I am thankful towards the Sommerhochschule for making a real difference in my life.

Raluca Radescu, Romania

Scholarships

A limited number of partial scholarships ranging from € 400 to € 2,800 are available for the European Study section of the summer school. The remaining amount to cover the program fee of **€ 3,388** (€ 1,950 program fee plus € 1,438 double room accommodation and full board) must be paid by the applicant.

The scholarships are awarded on the basis of academic excellence and financial need. In order to receive a scholarship, students must demonstrate their financial need by describing their financial situation and submitting related documents.

The application deadline for scholarship applications is February 28, 2019.

Applications must have reached the office of the Sommerhochschule by this date.

Please note that the scholarships are granted for the European Studies program only, therefore **scholarship students must attend and complete at least three European Studies courses**. German courses can only be taken in addition to those three European Studies courses.

Students applying for a scholarship have to submit the same material as regular applicants. Please refer to the application requirements number 1–6 (p. 30–31).

Scholarship applicants do not have to submit a deposit.

In addition to the application material listed, scholarship applicants have to submit the completed application form for financial assistance and include suitable documents demonstrating the applicant's financial need.

Scholarship applicants must provide the following:

1. Proof of the applicant's monthly net income: Pay-slip(s) or income tax return(s) from the applicant, on which the monthly net income is made apparent.
2. Proof of the monthly net income of the applicant's parents (if the applicant is under 30): Pay-slip(s) or income tax return(s) from the applicant's parents, on which the monthly net income is made apparent. If the applicant is over 30 no proof of the parent's income has to be provided.
3. Proof of the monthly net income of the applicant's partner or spouse (if the applicant is living in the same household): Pay-slip(s) or income tax return(s) from the applicant's partner, on which the monthly

net income is made apparent. If the applicant is not living in the same household with the partner, no proof of the income has to be provided.

4. Proof of any other existing financial support (e.g. scholarship, state support): Documents stating the kind of support, the amount granted, and the period for which it is granted.

Pay-slips must not be older than 3 months. Income tax returns should be from the most recent year.

Documents can be accompanied by an explanation if necessary. All supporting documents have to be submitted in English or German or with a certified translation into English or German.

Cancellation and Refunds

The Sommerhochschule's cancellation and refund policy is as follows:

The program fees paid are fully refundable when the program is cancelled by the Sommerhochschule and when an applicant has been denied admission to the program.

- Cancellations received on or before April 30 will entitle to a refund minus the deposit of € 400.
- Cancellations received between May 1 and May 31 will entitle to a refund of 75% of the program fee.
- Cancellations received between June 1 and June 30 will entitle to a refund of 50% of the program fee.
- Cancellations received between July 1 and one day before the start of the program will entitle to a refund of 25% of the program fee.
- For cancellations received after the program has begun no refund can be made.

All cancellations must be received in writing.

I am grateful for the scholarship I received and for the opportunity to come to Strobl. The organization was flawless and I will cherish my memories of Strobl as long as I live.
